FLEX SWIVEL SPINDLE CHAIR
MODEL 7875

STANDARD VERSION

Plastic shell ergonomically shaped. Material made of polypropylene, recyclable, manufactured in double-wall blown process. Thus soft sitting due to air cushioning effect, with integrated ventilation channels and groove to relieve the spine. Grip hole in the lumbar region and recessed grips on the upper edge of the backrest and underside of the chair.
Steel 5-star base, infinitely variable height adjustment by concealed steel swivel spindle with anti-rotation device. Round tubular column: 50 mm, epoxy coated. Floor protector with step protection.
